

Self-Haul Requirements:

- Per State law and La Mesa Municipal Code 7.30.090, customers that wish to self-haul must ensure that organic wastes are kept out of the landfill. Customers can either sort the materials onsite and bring them to a facility that recovers organic waste materials or may bring the mixed materials to a high diversion processing facility, as defined by La Mesa Municipal Code 7.30.010.
- Businesses that are approved to self-haul must keep a record of the amount of Organic Recycling Waste delivered to each organics recycling center, composting facility, and/or High Diversion Organic Waste Diversion Facility. This record shall be subject to inspection by the City and must be submitted to the City annually in June.
 1. The amount of material in cubic yards or tons transported by the Generator to each entity.
 2. Delivery receipts and weight tickets from the entity accepting the waste.
 3. If the material is transported to an entity that does not have scales on-site, or employs scales incapable of weighing the Self-Hauler's vehicle or material in a manner that allows it to determine the weight of materials received, the Self-Hauler is not required to record the weight of material but shall keep a record of the entities that received the Organic Waste.
- Customers that have been granted to self-haul must resubmit an application for a new waiver every year per State law in June.

- I am authorized to sign this form and acknowledge that the City of La Mesa's recycling and organic waste diversion requirements under Chapter 7 of the City of La Mesa Municipal Code are being met for all waste generated from this property.
- I attest that all information presented herein to be true and accurate and that no recyclable or organic waste materials generated at this property will be landfilled if this waiver is approved.
- I understand that approved self-haul waiver expires one year after the signature date on the form or upon the property changing ownership, at which time this property will need to submit a new waiver request or EDCO will deliver organic waste containers to this property.
- I acknowledge that the City and/or EDCO perform occasional inspections of the site to ensure that waste diversion is still occurring onsite and if a significant amount of recyclables and/or organic waste and/or recyclables if found in the trash, that approved waiver will be rescinded and EDCO will deliver an organic waste cart to this property.

- If the City obtains information at any time that a customer that has been approved to self-haul organic wastes is not keeping these materials out of the trash, the City shall rescind the Self-Haul form and direct EDCO Disposal to provide organic waste carts to the customer, subject to all applicable rules/fees.
