Per State law under SB 1383 and La Mesa Municipal Code Chapter 7, all customers/tenants are required to have access to recycling and organics collection service and must not place recyclable and organic waste in the landfill. Customers with individual landfill collection service may use this form to petition the City for permission to share recycling and/or organic waste collection containers with an adjacent property. There is no utility rate discount for sharing recycling and/or organics collection service. It is the customer's responsibility that the agreement and shared costs takes place between the shared collection service parties. Property #1 listed above accepts all responsibility of EDCO service and billing.

The adjacent property owners/business owners listed above are requesting to share the following EDCO Disposal waste collection carts: (mark all that apply)

Organic waste service (green) Recycling service (blue) Landfill service (grey)

Please explain how the container(s) will be shared, including where the shared container will be placed to allow both properties to have full access:

- As the property owner and/or business owner, I am authorized to sign this form and acknowledge that the City of La Mesa's recycling and organic waste diversion requirements under Chapter 7 of the La Mesa Municipal Code will be met for all waste generated from this property.
- I attest that all information presented herein to be true and accurate and that no recyclable or organic waste materials generated at this property will be landfilled if this waiver is approved.
- I understand that Property #1 accepts all responsibility of service and billing and access to EDCO billing information is only available to Property #1. Property #2 cannot make changes as it relates to the shared service of Property #1.
- I understand the shared collection service costs take place between the shared collection service parties for Property #1 and Property #2 and it is the customer's responsibility to share the cost and rate changes.
- I understand that if either property listed on this request no longer shares service, has limited or no access to the shared service, or is no longer separating their recyclable and/or organic waste as required, the approved request will be cancelled and EDCO will provide recycling and/or organic waste container(s) to each property.
- I understand that approval of this request expires upon the property changing ownership, at which time this property will need to submit a new request at that time or EDCO will provide recycling and/or organic waste container(s) to each property.
- I acknowledge that the City of La Mesa and/or EDCO will perform occasional inspections of waste carts to ensure that waste diversion is still occurring and if a significant amount of recyclables and/or organic waste is found in the trash, the approved request will be rescinded and EDCO will provide recycling and/or organic waste container(s) to each property.
