

Notice to Applicants for Business Licenses & Commercial Building Permits

Under Federal and State law, compliance with disability access laws is a serious and significant responsibility that applies to all California building owners and tenants with buildings open to the public. Certified Access Specialist Inspection Services

Compliance with State and Federal construction-related accessibility standards ensures that public places are accessible and available to individuals with disabilities. Whether your business is moving into a newly constructed facility or you are planning an alteration to your current facility, by engaging the services of a Certified Access Specialist (CASp) early in this process you will benefit from the advantages of compliance and, under the Construction-Related Accessibility Standards Compliance Act (CRASCA, Civil Code 55.51-55.545), also benefit from legal protections.

Although your new facility may have already been permitted and approved by the Building Department, it is important to obtain CASp inspection services after your move-in because unintended access barriers and violations can be created, for example, placing your furniture and equipment in areas required to be maintained clear of obstructions. For planned alterations, a CASp can provide plan review of your improvement plans and an access compliance evaluation of the public accommodation areas of your facility that may not be part of the alteration.

A CASp is a professional who has been certified by the State of California to have specialized knowledge regarding the applicability of accessibility standards. CASp inspection reports prepared according to CRASCA entitle business and facility owners to specific legal benefits, in the event that a construction-related accessibility claim is filed against them.

To find a CASp, visit www.apps2.dgs.ca.gov/DSA/casp/casp_certified_list.aspx.

BUSINESS LICENSE DIVISION

The Business License Division of the City of La Mesa addresses business tax and sales tax issues; it does not regulate business activities. Per the La Mesa Municipal Code section 6.04, anyone doing business in the City of La Mesa must have a business license issued by the City of La Mesa. "Doing business in the City" is defined as having an office or work site within the geographic boundaries of the City, or entering the City to conduct business with the intent of being paid, including: all businesses with La Mesa addresses, all professionals, home-based businesses, contractors, subcontractors and delivery businesses based in other cities. Almost every city and county in California has some form of business licensing or business tax certificate program. Because it is a local tax, licensing is not transferable between cities or counties.
